## PERMISSION TO DISTRIBUTE TRANSCRIPT DATA

### Child Language Data Exchange System Carnegie Mellon University

Carnegie Mellon University, an educational institution located in Pittsburgh, Pennsylvania, through Brian MacWhinney, as Professor, Department of Psychology, College of Humanities and Social Sciences of the University, is participating in a program known as TalkBank that was established through federal and foundation grants. For the program to function properly, many contributors will give permission for TalkBank to distribute their transcripts and audio and video data to other researchers. The level of distribution permitted will be in accord with the permissions granted by the subjects through informed consent in the United States or through similar procedures in other countries.

With a full understanding of the aforementioned, I hereby give permission to Brian MacWhinney, Director of the Center of the Child Language Data Exchange System at Carnegie Mellon University, to make and circulate copies of the language transcripts and recordings that I describe under (1) and (2) below. TalkBank may distribute these data to scholars and other responsible parties in accord with the level of access I have specified. If I have specified that the data should be anonymized, TalkBank will work with me to remove all references that might identify particular participants.

I warrant that there are no other restrictions that have been placed on the use of this data by any university committee, and further warrant that neither I nor anyone associated with the gathering and dissemination of this information retain a U.S. or foreign copyright restriction over the transcripts being circulated. Any further restrictions that I wish to place on the use of these data are listed under (3) below. I do not hold Brian MacWhinney or Carnegie Mellon responsible for the enforcement of these further restrictions, and I indemnify and render harmless both Brian MacWhinney and Carnegie Mellon University against any actions at law or in equity or in similar courts of any jurisdictions arising from violations of these restrictions.
