Oliver...

Transcripts of the videos I made of you playing with your mom and dad when you were two are stored on the Child Language Data Exchange System (CHILDES) website. This resource enables researchers across the world to share data with each other and provides data analysis support.

I am sending the original video and audio tapes for them to digitize and add to the transcripts. Copied here are the two primary people heading up this effort. Please reply all to this message to give your consent for CHILDES to have your transcripts/videos/audios and allow researcher access to them. Your parents consented when you were a child, but now that you are an adult, they need your consent as well.

Hope your lovely family is well...and happy birthday to Morgan. I can't believe she is one already! I will miss your grandfather's service as I will be in San Francisco...but John will come.

Take care,

Marty
