

**PERMISSION TO DISTRIBUTE TRANSCRIPT DATA THROUGH TALKBANK
Carnegie Mellon University**

Carnegie Mellon University is participating in a data-sharing program known as TalkBank that was established through federal and foundation grants to Brian MacWhinney at Carnegie Mellon. For the program to function properly, contributors will be asked to and will give permission for their work to be made available to other researchers. With a full understanding of the aforementioned, I hereby give permission to TalkBank to make and circulate electronic copies of the language transcripts and media that I describe below. These copies may be distributed to scholars and other responsible parties. I warrant that this use of the data is in accord with Human Subjects review procedures at my institution and that participants have given informed consent to have their data available to researchers. I also warrant that there is no copyright restriction over the transcripts and media being circulated. Any further restrictions that I wish to place on the use of these data are listed under (2) below. I do not hold Brian MacWhinney or Carnegie Mellon responsible for the enforcement of these further restrictions and indemnify and render harmless both Brian MacWhinney and Carnegie Mellon University against any actions at law or in equity or in similar courts of any jurisdictions arising from violations of these restrictions.

General description of the data set, and IRB Approval # (if available): The Lara corpus consists of 120 hours of audio-recorded speech from one child interacting with her caregivers between the ages of 1;9.13 and 3;3.25, and a written diary record of the child's wh-questions produced between 2;7.21 and 3;3.30. The work was funded by the Economic and Social Research Council, Grant No. RES000220241.

Restrictions to be placed on the use of the data: The audio files should be kept in a private repository and not shared with anyone without the explicit permission of the contributor. The participants have explicitly refused consent to share the audio files. The transcripts have been anonymised and can be shared on CHILDES. We have consent from the participants to share the transcripts.
